Subject: Application for Any Available Position

Dear Hiring Manager,

I am writing to apply for any suitable opening within your organization. As a recent Bachelor of Science in Computer Science graduate, I bring a practical, well-rounded skill set built through direct, hands-on work in computer and laptop repair, technical support, sales, data entry, and document management — experience that has prepared me to contribute from day one.

In my work as a computer and laptop technician, I have carried out mid-level hardware repairs, deep cleaning, and system troubleshooting, resolving issues ranging from overheating and slow performance to software errors, so that clients receive dependable, fully functioning devices. As a sales representative, I guided customers toward the right products for their needs and budget, prepared accurate quotations, and built lasting customer relationships that supported repeat business. These roles, together with my background in technical support, data entry, and document control, have sharpened my ability to solve problems quickly, communicate clearly, and manage detail-heavy work with accuracy.

I am comfortable working independently or collaborating as part of a team, and I bring a strong work ethic, careful attention to detail, and genuine enthusiasm for learning new tools and systems. I would welcome the opportunity to bring this combination of technical and customer-facing skills to your organization and to discuss how I can contribute to your team's goals.

Thank you for considering my application. I would welcome the opportunity to discuss my qualifications further at your convenience.

Sincerely,
Val Wenie B. Macua

Val Wenie B. Macua

Freelance IT Support & Computer/Laptop Technician

- System Deep Cleaning & Maintenance
- Technical Support (Phone, Email, Chat)
- Data Entry & Database Management
- Sales & Customer Service
- Web Development (HTML, CSS, JS, React)
- Virtual Assistance & Admin Support
- Document Control & Report Preparation
- Basic Computer & Productivity Tools

PROFESSIONAL EXPERIENCE

Computer & Laptop Technician | Self-Employed

Iligan City, Philippines

- Performed mid-level repair services for laptops and desktop computers, including diagnosing hardware and software faults.
- Carried out deep cleaning of internal components (fans, heatsinks, keyboards, vents) to improve performance and prevent overheating.
- Troubleshot common issues such as slow performance, system crashes, blue screens, virus/malware infections, and connectivity problems.
- Reassembled, tested, and verified unit functionality before returning devices to clients, ensuring customer satisfaction.
- Provided clients with basic maintenance tips to prolong the lifespan of their devices.

Sales Representative | Part Timer

Philippines

- Assisted customers in selecting computers, laptops, printers, accessories, and related tech products according to their needs and budget.
- Promoted and sold computer products, laptops, printers, and accessories while providing accurate product information.
- Prepared price quotations, processed customer inquiries, and provided after-sales support.
- Built and maintained good relationships with customers to encourage repeat business and referrals.
- Monitored inventory levels and coordinated with the technical team regarding customer requirements.
- Created engaging content for social media and other platforms to promote products and services.

Technical Support Specialist | Part Timer

Philippines

- Provided troubleshooting and technical assistance to registered users, resolving hardware/software issues via phone, email, and chat.
- Advised customers on product features, best practices, and system optimizations to enhance user experience.
- Documented support tickets and collaborated with development teams to escalate critical issues.

Data Entry Specialist | Part Timer

Philippines

- Accurately input and maintained large volumes of data from diverse sources into company databases.
- Verified data integrity, performed regular audits, and generated reports to ensure consistency.
- Streamlined data workflows, reducing processing time through improved organizational methods.

Virtual Assistant | Part Timer

Philippines

- Managed administrative tasks, including email correspondence, scheduling, and document preparation.
- Assisted with content creation, social media management, and basic graphic design for marketing campaigns.
- Supported client projects by conducting research, editing materials, and coordinating cross-functional tasks.

Web Developer | Self-Employed

Philippines

- Developed responsive websites using HTML, CSS, and JavaScript (React/Angular).
- Built REST APIs and backend logic using Node.js, ReactJS, and PHP.
- Optimized site performance for speed and cross-browser compatibility; managed SQL/NoSQL databases and implemented user authentication (JWT/OAuth).
- Fixed bugs, improved user experience, and mentored junior developers.

Document Controller | Part Timer

Philippines

- Managed document filing, record management, and document tracking.
- Prepared reports and maintained confidentiality of sensitive files.
- Conducted quality checking of documents using Microsoft Word, Excel, PowerPoint, and Google Workspace.
